In this case, it is an electronic validity linked to the active status and current data of the student in the information system of the study agenda.

Each SU student - is issued an ID card (IDK) which is active in the electronic systems of SU for the entire period of his/her studies. In addition to this electronic validity, there is a so-called visual validity associated with each IDK, which is marked on the IDK and can be extended by revalidation marks.
