Department of Information Technology

Department of Information Technologies (abbreviated **UIT** in Czech language) is a department of the School of Business Administration in Karviná (SBA) of the Silesian University in Opava (SU), which ensures the use of information technology in the teaching process as well as in the operation of study, economic and administrative agendas.
The UIT manages the faculty's computer network and operates the faculty's comprehensive information system.
UIT participates in teaching computer science courses and is involved in faculty research.

Information system - IS SU

Website **Information System - IS SU** contains all important information for users of the SU Student Information System .

News

Changes to the certificate on the Eduroam Wi-Fi network

01.12.2025 Due to a change in the certification authority, the Eduroam network settings will change at midnight from December 4 to December 5, 2025. You do not need to do anything at this time. If you are unable to connect to Eduroam after this date, you will need to reconfigure your network according to the instructions found here.
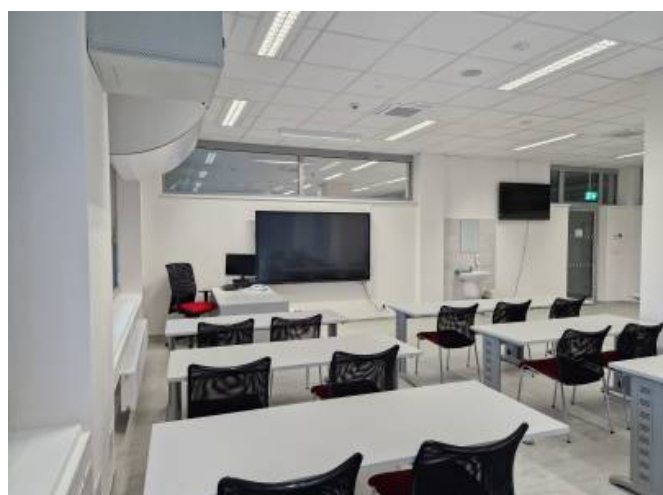

New meeting room A309

26.2.2025 In the newly reconstructed meeting room A309 we installed the MS Teams Room videoconferencing equipment and a large screen touch screen.

Technology for new classrooms at Vyhlídka

24.1.2025 After the completion of the reconstruction of Vyhlídka D, we installed technology in the new classrooms VD104, VD105, VD106. The classrooms are equipped with large screen touch screen TVs. The smallest, VD103, has been installed with a Microsoft Surface Hub and thus has the possibility of being used for hybrid learning.

Participation of Dalibor Hula at the ORS 2024 conference

21.11.2024 At the ORS 2024 conference, our

colleague from UIT Dalibor Hula spoke. His presentation can be viewed on the conference website ORS

New PC A216 and A318

21.10.2024 There are new PCs and new 27' monitors in classrooms A216 and A318.

Office 2024

16.10.2024 MS Office 2024 is available from October 2024. If you use the so-called numbered versions of Office on your PCs, please request a reinstallation via helpdesk. Alternatively, every employee has the option to install the always up-to-date Office 365.

Horizon version 8

1.9.2024 An updated version of the Omnisa (ex Vmware) Horizon remote access system is now available. Within it it is possible to use Windows 11 PC. Details can be found at Remote access to applications Vmware Horizon.
